ANN MARY JOHN

Interior Designer | Bespoke Designer | Visualisation & CAD
Leicester LE1 4BE | 07909300980 | johnson.ann024@gmail.com | LinkedIn

SUMMARY

Interior Designer and Architectural professional with experience delivering high-end residential projects and luxury bespoke interiors, specialising in technical detailing and 3D visualisation. Currently at Clarkson Bespoke, producing highly detailed CAD drawings and production-ready joinery solutions while working closely with design and manufacturing teams. Known for translating refined design concepts into precise, buildable outcomes, with a strong focus on materiality, craftsmanship, and detail-driven execution.

WORK EXPERIENCE

CAD and Multimedia/ Interior Designer, Clarkson Bespoke, Chelford, UK **July 2025 - Present**

- Develop precise 2D CAD drawings, including plans, elevations, and joinery details for bespoke interior projects, ensuring accuracy for manufacturing and installation.
- Translate client briefs and design concepts into detailed technical drawings, aligning aesthetics with functionality and buildability.
- Produce high-quality 3D visualisations and renders to effectively communicate design intent to clients.
- Collaborate closely with designers, workshop teams, and project managers to ensure seamless coordination between design, production, and on-site execution.
- Contribute to material selection, detailing, and specification, balancing design vision with cost-efficiency and craftsmanship.
- Support multimedia and presentation outputs, including mood boards and client-facing visuals, enhancing overall project communication.

Freelance Interior Architect, Arietis Abode Design, London **May 2024 - July 2025**

- Created detailed 2D floor plans, elevations, and technical drawings for high-end residential projects.
- Translated client briefs into cost-efficient, build-ready solutions.
- Managed design revisions under tight timelines with a focus on material optimisation and buildability.
- Assisted the project architect from concept to execution, contributing to design development and spatial planning.
- Supported in preparing presentation boards, mood boards, and 3D visuals to communicate design intent effectively.

CAD Assistant (Part-time), Studio Madras Architects, Chennai, India **Jan 2021 - June 2021**

- Assisted senior architects in developing architectural plans and designs using AutoCAD and SketchUp.
- Contributed creative input in design brainstorming sessions and produced 2D and 3D models.
- Prepared presentation materials for client meetings.

Intern Junior Architect, Studio Decode, Bengaluru, India **July 2021 - Dec 2021**

- Produced detailed working drawings and comprehensive technical documentation for a commercial fit-out project, encompassing partition walls and intricate joinery, which facilitated a 15% reduction in on-site construction errors.
- Facilitated alignment of design execution and technical specifications during site visits; optimized collaboration with clients, resulting in project completion ahead of schedule, benefiting clients in the pipeline.
- Supported senior architects with design-to-delivery workflows, developing an early understanding of project costing and manufacturing processes.

EDUCATION

Master of Arts in Interior Design **Jan 2023 - Mar 2024**

Coventry University, UK

- Curriculum covered Collaboration in Practice, Professional Contexts, and Interior Design specialism.
- Graduated with Merit.

Bachelor's in Architecture **Sep 2017 - Jun 2022**

Anna University, Chennai, India

- Curriculum covered Structural Design, Landscape Architecture, Urban Design, and Architectural Design.
- Graduated with First Class.

COMPETITIONS

- Archue Competition "Dwelling 2100" - Future dwelling housing design with futuristic technologies.
- Academic Competition for Community Market during the pandemic (Runner-up with cash reward).

WORKSHOPS & TRAINING

- Design Exchange Program - IIT Roorkee
- Thannal Natural Building Workshop - Tamil Nadu
- Sacred Grooves Hands-on Training - Auroville, Puducherry
- Conferences by Ar. Hafeez Contractor & Ar. B.V. Doshi

SOFTWARE SKILLS

- **CAD Tools:** AutoCAD, Rhino 3D, SketchUp, Revit
- **Visualization:** Lumion, Blender, Enscape
- **Graphics:** Photoshop, Illustrator
- **Office & Docs:** MS Office, InDesign
